Hi Kaggle,

Today's Assignment

1. [Read this tutorial](#) (from Lesson 7 of the Python course)
2. [Complete this exercise](#) (from Lesson 7 of the Python course)

What You'll Learn

One of the best things about Python is the vast number of high-quality custom libraries that have been written for it. In **Lesson 7 (Working with External Libraries)**, you'll learn how to access this pre-written code and use it in your own work.

Once you have completed the assignment above, you're done for the week! Celebrate! You'll get a new email tomorrow with the plan for next week.

Happy learning,
Alexis
