Hi Kaggler,

📋 **Today's Assignment**

1. Read this tutorial (from Lesson 2 of the Python course)
2. Complete this exercise (from Lesson 2 of the Python course)

💡 **What You'll Learn**

In **Lesson 2 (Functions and Getting Help)**, you'll learn how to work with functions, which are reusable blocks of code designed to perform a task. You'll also learn how to write your own!

Note: To discuss with other people taking the course, you can post in the official Discord for the 30 Days of ML program. If you haven't joined Discord yet, use this link to sign up.

Happy learning,
Alexis
